

HOW TO FIT EDGE ADAPTERS (25mm ADAPTER VERSION)

These adapters are intended for mounting a pair of Polaris Hinges to a fence and gate. The Gate and Post are typically 25mm wide X 50mm deep (1 in x 2 in).

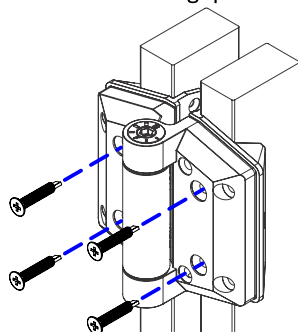

1. First step will be to fasten the adapters to the hinge.
Use the provided Stainless M5x20mm screws to create a Hinge assembly

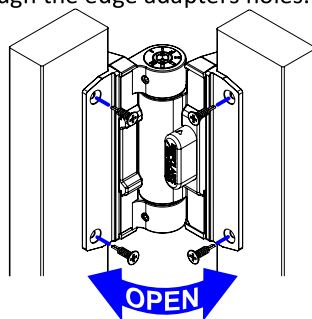

2. Position the hinge assembly onto the Gate and Post which makes a gap of 20mm (3/4in)

3. Securely fasten the hinge as per its Install instructions
(Screws provided with the hinge)

4. To finish the installation, open the gate and install the small screws, as provided (8x16mm C/S), through the edge adapters holes.
