

Magnetic Latch

Introducing the **Magnetic Latch**

Part of the Gate Solutions by Codelocks Range, the Magnetic Latch is a robust, all-in-one solution crafted specifically for the Australian domestic gate market. Available in complete bundles with Codelocks' CL200 and CL400 black Marine Grade mechanical locks, this package is ideal for traditional metal residential gates — combining premium corrosion-resistance with effortless functionality.

The Magnetic Latch is designed for easy installation and comes complete with:

- An Australian Made* magnetic latch
- Your choice of a CL200 or CL400 black Marine Grade mechanical lock
- All necessary fixings and a comprehensive installation guide

Whether it's a new gate installation or an upgrade, the Magnetic Latch makes it controlled, simple and stylish — right out of the box.

Why Codelocks Marine Grade Matters

Marine by Codelocks delivers enhanced durability for outdoor and coastal environments:

Rigorous salt spray testing up to 1000 hours**, ensuring dependable performance even in coastal or high-humidity areas

Durable black Marine Grade coating that maintains its appearance and functionality over time
